

Left Hand Drill Kit

Removes broken bolts, screws, and other fasteners without an extractor

Cobalt Steel Material- Capable of drilling hardened materials. Excellent Heat & Wear Resistance. Longer tool life than HSS

135° Split Point- Self-centering split point reduces walking and will engage the fastener more easily

Bronze Surface Treatment- For Maximum Lubricity. Adds a protective layer to the drill for longer tool life

3-Flat Shank- Reduces slippage in the drill chuck for easier operation. Sizes 3/16" and above

Used By:

Machinists

Maintenance Depts.

Contractors

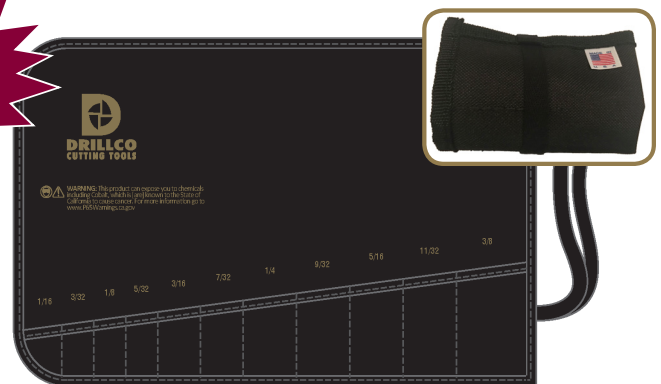

Mechanics

Installation Crews

Comes in a lightweight, compact, rollup pouch for easy storage!

EDP#300LH11
